

## Center for Oral Health Care & Research

A New Foundation for Oral Health Care Training in Texas

The Center for Oral Health Care & Research is the Dental School's first new facility since the original building opened in 1972. Within the walls of this soon-to-be built facility, the Health Science Center will bring to our state and nation improved dental education, training and care.

### Building Essentials:

- Opens in July 2015
- 198,000 square feet
- 4 story state-of-the art facility located next to UT Medicine's faculty practice site
- Location for all clinical training and patient care
- Specialty clinics will be located on the first two floors
- Pre-doctoral clinic will have 200 operatories and comprise the top two floors
- Patient visits estimated to increase by 15% within 3 years

TOTAL COST: \$108 Million
