Subject: Funding Opp: DOD Funding available for military combat-relevant orthopaedic research
For more information on the web about DOD Congressionally
Directed Medical Research Programs (CDMRP) funding opportunities
please follow this link: https://cdmrp.org/Program_Announcements_and_Forms.
As a reminder, HCS personnel should use Cayuse to submit federal
proposals rather than the Adobe-based forms available at grants.gov as
mentioned in the email below and in the application instructions.
Further, please be reminded that OSP requires three full business days
to review all proposals: <http://research.uthscsa.edu/osp/PRP.shtml>.
If any of the links below do not work - please copy and paste the link
into your web browser.

You have received this information as a result of being subscribed to
the UTHSCSA Office of Sponsored Programs fundinginfo2 ListServ. To
remove yourself from this list, either:

- Visit the Subscriber's Corner in the List Archives, and follow the
onscreen instructions to log in and manage your list subscriptions, OR
- Send a delete request to buele@uthscsa.edu <buele@uthscsa.htm> . DO NOT send your request
directly to the ListServ.

For more ListServ information, please contact Liz Buel in the Office of
Sponsored Programs at 567-2335 or buele@uthscsa.edu <buele@uthscsa.htm> .

Subject: Funding available for military combat-relevant orthopaedic research
Fiscal Year 2009 (FY09) congressional appropriations have provided \$112 million to the
Department of Defense (DOD) Peer Reviewed Orthopaedic Research Program (PRORP). This
program will support innovative, high-impact, clinically relevant research to advance treatment
and rapid rehabilitation from musculoskeletal injuries sustained during military combat or
combat-related activities.

The PRORP is pleased to announce that the below Program Announcement/Funding Opportunity
has been released. Submission deadlines are provided.

Career Development Award
Max. Direct Costs: \$225,000
Max. Period of Performance: 3 years

Pre-Application (Pre-Proposal): November 20, 2009

Application: December 9, 2009

Funding Opportunity Number: W81XWH-09-PRORP-CDA

Description: The PRORP Career Development Award is being offered for the first time in FY09. This award supports a mentored research experience to prepare military investigators without significant experience in orthopaedic research for a productive, independent career in this field. This award supports individuals in the early stages of their careers by providing the experience necessary to pursue career opportunities at the forefront of orthopaedic research and make significant contributions to combat-relevant orthopaedic research and/or clinical care. Pre-applications are REQUIRED for all PRORP award mechanisms.

Detailed description of the award mechanism, including the intent, eligibility, evaluation criteria, and submission requirements can be found in the FY09 PRORP Program Announcement and Application Instructions & General Information documents, which are available from the Grants.gov website (<<http://www.grants.gov>> <<http://www.grants.gov%3e>>), the CDMRP website (<<http://cdmrp.army.mil/funding/prorp.htm>> <<http://cdmrp.army.mil/funding/prorp.htm%3e>>) and the CDMRP eReceipt Website (<<https://cdmrp.org>> <<https://cdmrp.org%3e>>).

Additional PRORP Program Announcements will be released in September 2009.

The PRORP is administered by the U.S. Army Medical Research and Materiel Command through the Office of the Congressionally Directed Medical Research Programs (CDMRP). A listing of all current USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

Please visit <http://cdmrp.army.mil> for more information.
