

- Activities for the BOLD Program include, recruitment to South Texas high schools and Universities.
- During high school visits, interested students are identified and invited to participate in future BOLD workshops in the area.
- Our visits with Pre-dental students from universities include information about pre-requisite courses and dental admissions.

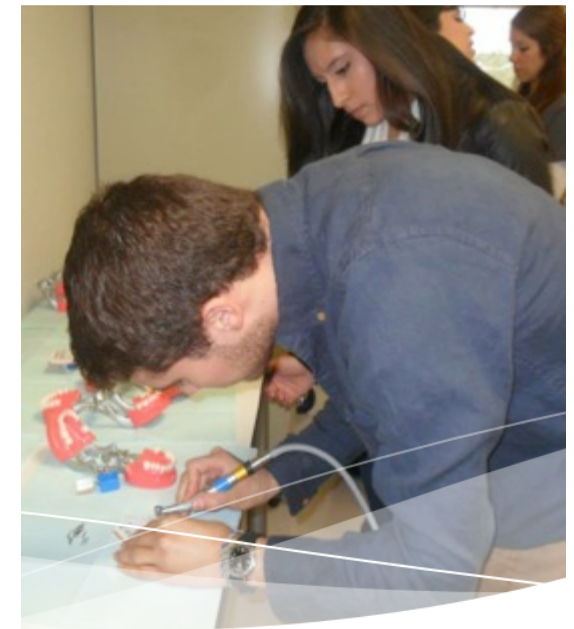

BOLD workshops for high school and pre-dental students include several dental hand-on activities.

BOLD Workshops

BOLD workshop dental related hands on activities for both high school and college students take place in San Antonio, Laredo, and various cities in the Rio Grande Valley Region. Additional application process workshops for pre-dental students take place at universities accross South Texas. Please contact us if you are intrested in having us visit your high school, college or university campus.

Is Dentistry for you?

- If you enjoy working with your hands and being creative, the field of dentistry allows you to use these skills daily.
- If you like interacting with people and helping them be healthier and giving them a healthy smile, dentistry is a career that allows you to build lasting relationships with your patients.
- If you enjoy interacting with science and technology, dentistry has new and exciting advancements in these areas; you would enjoy working with these daily while doing clinical procedures.
- If you like running your own business, dentistry allows you to be the leader of your oral healthcare team.
- If you want a family friendly schedule, dentistry allows for flexible work hours.
