

MESSAGE SENT ON BEHALF OF
Dr. Bjorn Steffensen
Associate Dean for Research – Dental School

Dear Colleague –

Please note this opportunity for clinical research training for dental students. This program is open to both medical and dental students through the NIH Fogarty International Center, but we get very few dental student applications. Selected students spend a year between the 3rd and 4th years of dental school doing clinical research in a Fogarty-sponsored research center in a developing country.

Please disseminate the attached flyer regarding this opportunity among appropriate students.

Thanks

Kevin

Subject: Fogarty International Clinical Research Scholars Program Seeks Applicants

Drs. Tabak and Hardwick,

On behalf of Dr. David Korn, AAMC Chief Scientific Officer, and Tanya Smith, AAMC Program Manager, I am writing to request that you circulate an announcement regarding the Fogarty International Clinical Research Scholars Program.

We would be most grateful if you would disseminate the attached program flyer again to dental school deans.

Thank you in advance for your continued assistance.

Warm Regards,

Katy Carkuff
