

MESSAGE SENT ON BEHALF OF
Dr. Bjorn Steffensen
Associate Dean for Research – Dental School

Dear Colleagues:

We have been informed about the upcoming Children's Health Research Summit scheduled for January, 2009. Please see info below.

Bjorn Steffensen

From: Buecker, Cynthia C
Sent: Tuesday, December 16, 2008 2:52 PM
Subject: 2009 Children's Health Research Summit (CHRS 2)

— REMEMBERING last year's **Children's Health Research Summit**, which took place on January 28, 2008, at the UTSA downtown campus, as a forum for the exchange of ideas, and as a networking opportunity among individuals of various backgrounds, for the development of improved infrastructure for children's health research in San Antonio and South Texas, and...

— RECALLING that discussion at the above-described Summit featured segments on CHART, IIMS, CTSA, the National Children's Study, public health and community and population-based research, clinical research and trials, and behavioral and psychosocial research, and...

— ANTICIPATING the **second Children's Health Research Summit**, planned for **January 30, 2009**, at the **CHRISTUS Santa Rosa Medical Center downtown** (announced by e-mail of 11/17/08),

YOU ARE INVITED to [register](#) by e-mail to attend the 2009 Children's Health Research Summit (send name, organization, and contact information to buecker@uthscsa.edu <<mailto:buecker@uthscsa.edu>>),

YOU ARE ENCOURAGED to **e-mail abstracts** describing your innovative projects, be they clinical, behavioral, legal, or social. *Four abstracts will be selected for 8-12 minute oral presentations and the remainder will be presented by poster. Abstracts of a few lines describing the patient/subject population, the research question and study interventions, and the results or conclusions obtained so far will suffice. A template is attached for your convenience.*

Proposed registration and submission deadline: **December 29**

To review last year's proceedings, please click on http://www.pediatrics.uthscsa.edu/research_summit.asp.

I look forward to seeing you again and to stimulating news of on-going health research projects for our children.

Anthony Infante, MD, PhD

Vice-Chair for Pediatric Research
Department of Pediatrics
University of Texas Health Science Center at San Antonio
