

Subject: Northside Health Careers Summer Program

Date: Monday, March 31, 2008 2:25 PM

MESSAGE SENT ON BEHALF OF

*Dr. Bjorn Steffensen
Associate Dean for Research – Dental School*

Dear Faculty:

In past years, you have all been very supportive in providing mentorship and training of high school and undergraduate students for Summer Research Programs and have successfully seen them through their final presentations and competitions at local and national science fairs. I am again seeking your support. A group of high school students from the Northside Health Careers Summer Program are being selected for an 8 week internship at the UTHSCSA this summer. These students are juniors or seniors with an interest in science and selected based on grades, letters of recommendation from English and Science teachers and an essay on their future goals. Only the top students will be selected.

Many thanks for your consideration and I look forward to hearing from you,

Sophie
