

Leroy Hood, M.D., Ph.D.

President and Co-founder

Institute for Systems Biology

*Psychiatry Grand Rounds Hosts*

## **A Revolution in Medicine: Proactive P4 Medicine – Predictive, Preventive, Personalized and Participatory**

Tuesday, October 23, 1:30 pm  
UTHSCSA Pestana Lecture Hall, 3.104

**Dr. Leroy Hood**

1987 Lasker Award

2002 Kyoto Prize

2003 Lemelson-MIT Prize

2011 Russ Prize

17 honorary degrees

**Co-sponsored by the STRONG STAR Multidisciplinary PTSD Research Consortium and the Core for Advanced Translational Technologies (CATT)**

A biomedical research pioneer and visionary, Dr. Hood founded the University of Washington Department of Molecular Biotechnology in 1992 and co-founded the Institute for Systems Biology in 2000. With over 700 peer-reviewed papers and textbooks, 36 patents and a founding role in 14 biotechnology companies to his credit, Dr. Hood offers an astute perspective on the trajectory of biomedical research and translational medicine.
