Subject: New Funding Announcement (RFA-RM-12-021)

Evaluation of Multi-'omic Data in Understanding the Human Microbiome's Role in Health and Disease (U54)

<http://grants.nih.gov/grants/guide/rfa-files/RFA-RM-12-021.html>

This FOA invites applications for projects that will: 1. generate microbiome taxonomic, metagenomic and functional data from clinical biospecimens obtained from a cohort(s) of carefully-phenotyped subjects with a specific disease or health state; and 2. combine the microbiome and host data to produce a community resource. This program is a component of the NIH Common Fund Human Microbiome Project (<http://commonfund.nih.gov/hmp/>).

Best regards,

R. Dwayne Lunsford, PhD

Director, Microbiology Program

Dental Small Business Coordinator (SBIR/STTR)
