Dear Dr. Dodge:

Enclosed you will please find some brochures for our 2013 Summer Institute in Clinical Dental Research Methods, a six-week program which begins July 1, 2013. This has served as a useful and popular faculty development program, and to date, in the twenty one previous Summer Institutes, we have had almost 500 people from institutions in 31 U.S. states and 44 foreign countries participate. To read an overview and summary of the program, see the just published "The Summer Institute in Clinical Dental Research Methods: Still Going and Growing after Twenty Years" *Journal of Dental Education* (76)11, November 2012, 1408-15.

Please distribute the brochures to potential participants among your faculty. Also, please note that we are no longer able to offer this program without charge. The fee to attend is \$1000.

More information about the program and a pdf of this brochure can be found at our website:
<http://depts.washington.edu/dphs/suminst/>

The University of Washington School of Dentistry will have a booth at the AADR meetings in Seattle. Interested parties should feel free to stop by.

Sincerely,

Timothy A. DeRouen, Ph.D.
Director, Summer Institute in Clinical Dental Research Methods
