**Subject:** FW: NIH Lasker Scholar Program, deadline for a full application is June 24, 2013,

Dear T32/T90/R90 Program Directors:

I am sending information from the NIH Intramural Research Program regarding the 2013 Lasker Clinical Research Scholars Program. Please feel free to distribute to interested individuals. For questions, contact Dr. Charles Dearolf, Assistant Director for Intramural Research at NIH, at [LaskerScholar@nih.gov](mailto:LaskerScholar@nih.gov).

**The National Institutes of Health is recruiting...  
Lasker Clinical Research Scholars**

The National Institutes of Health, in partnership with the Lasker Foundation, is pleased to announce the 2013 Lasker Clinical Research Scholars Program. This is an opportunity for up to 12 years of funding for clinical researchers. **The Lasker program supports a small number of exceptional clinical researchers in the early stages of their careers to promote their development as independent investigators.**

Candidates must have a clinical doctoral degree (MD, MD/PhD, DO, DDS, DMD, RN/PhD or equivalent) from an accredited domestic or foreign institution and must have a professional license to practice in the United States. The program is intended for investigators at the early stages of their independent careers, and at the time of application, candidates must be no more than 10 years from completion of their core residency training. Applicants generally will have completed or be com-research experience to qualify for a tenure-track level appointment. **The deadline for a full application is June 24, 2013.**

The positions will start in 2014. More information and links to the application RFA are available at <http://www.nih.gov/science/laskerscholar/index.html>.

For questions, contact Dr. Charles Dearolf, Assistant Director for Intramural Research at NIH, at [LaskerScholar@nih.gov](mailto:LaskerScholar@nih.gov).

See attachment for full details.

Best,

Leslie
